**Become a
Generation Next
Partner**

Who are we?

Generation Next is a membership network for young business owners and employees aged between 18 and 35, facilitated by East Midlands Chamber.

We are passionate about building futures by connecting like-minded professionals and helping them thrive through our programme of monthly events and on-hand support.

By becoming a Generation Next Partner, you will be aligning your organisation with our vision and values, and help shape the support and skills of young professionals across the East Midlands.

There are plenty of opportunities to get involved in what we offer. From hosting your own event, joining our panel discussions, judging our awards or publishing content via our website, each step of the way you'll be helping develop our region's talent and future leaders.

So what are the benefits of partnering with Generation Next?

Brand Exposure

Minimum of one feature, concerning Generation Next, in East Midlands Chamber's Business Network magazine

Opportunity to provide information blogs for the Generation Next webpage
